- ↗ Local, state, and federal government

✓ Why Us?

- ↗ Content expertise, creativity, passion, & access drive our work.
- ↗ NYCLMIS embodies decades of combined experience in workforce policy and labor market research.
- ↗ We maintain an exhaustive, up-to-date warehouse of labor market, demographic, and economic data.
- ↗ We have an expansive network of subject matter experts, service providers, and employers.
- ↗ We are situated within CUNY's premiere doctoral granting institution. This allows us to call upon the expertise of our colleagues in academia and to staff teams of sophisticated researchers that are responsive to the needs of any given project.

We are celebrating over a decade of service in the field. We were founded in 2008 as a joint venture between the former NYC Workforce Investment Board and the City University of New York (CUNY). We have since evolved into a free-standing entity within CUNY, broadening our reach to a wide range of workforce and education stakeholders, locally and throughout the US.

We are the only outfit in New York City fully dedicated to collecting, analyzing, and applying labor market intelligence to strengthen the labor market.

Many influential outlets in our sphere, including the US Department of Labor, have profiled our work.

Products and Services

Career Maps

Understanding how people actually progress in their careers - and what it takes to get ahead - can help ready people for labor market success. Our signature, data-driven approach reveals a reality-based, user-friendly road map for navigating careers.

Program Alignment

How closely do program offerings match what employers want? We help educators and trainers understand their graduates' labor market prospects and identify ways to better align their offerings.

Industry Reports

Industries support a range of jobs, and the nature of the work can vary by occupation, employer, setting, location, and more. To help people plan for the future, we break it all down and look ahead.

Training on LMI

We work with a range of audiences to familiarize them with readily available sources of labor market information. Our trainings help them identify, navigate, and interpret data.

Jobs Reports

Each quarter, we release a snapshot of the labor market for New York City and its five boroughs. These reports draw from the most up-to-date sources on jobs, employers, workers, and more.

Strategic Consulting

Beyond this menu of products and services, we offer custom data-driven intelligence, materials, and guidance to policymakers and service-providers in philanthropy, education, and workforce.
