

Project on Peacebuilding – Bosnia 2018

During August 2018, the fifth annual Project on Peacebuilding course was run by Most Mira with the European Union Studies Center. The project is a week-long residential to explore the politics and history of the conflict in the Prijedor region, memorialization of the conflict, and the current work of human rights activists in the area. A few of the highlights:

- 19 participants aged 17-33 from 9 countries.
- A week of workshops on post-conflict, peacebuilding, gender, memorialization, nationalism, diaspora, poverty, art and activism.
- Site visits to two former concentration camps and mass graves in the region.
- Discussions with survivors of the camps.
- The participants collected more than 150 community surveys in Kevljani, Kozarac, and Prijedor.
- ...and many, many memories were made together with this inspiring group of people.

Please visit the [Project on Peacebuilding \[projectonpeacebuilding.wordpress.com\]](http://projectonpeacebuilding.wordpress.com) blog to read the reflections and findings from this year's participants.
