# PH.D. IN COMPUTER SCIENCE

Prepare for leadership positions in industry and academia through our research-intensive program.

You will have the opportunity to:

- Conduct original research for publication in peer-reviewed journals and presentation at conferences.
- Master computer science broadly and gain in-depth knowledge in an area that appeals to you.
- Specialize in one of today's most exciting areas, including algorithms, artificial intelligence, big data, computational biology, cryptography, databases, data science, data visualization, machine learning, natural language processing, networks, security and privacy, 3D photography, and more.
- Collaborate with and learn from internationally known faculty.

FALL 2022

APPLICATION DEADLINE:

**DECEMBER. 15TH, 2021**

**APPLY NOW**
